NEW YORK

MISS GERALDINE M. W. RYAN, *President*

Telephone, Columbus 2520-2521

MISS A. L. ALSTON, for nearly eight years Superintendent of Mount Sinai Training School for Nurses, opened, September, 1894, a house for the reception of private patients.

MISS RYAN'S long and thorough experience will insure the best of nursing and general supervision for those who are in her charge. Great attention is paid to the careful preparation and serving of the food.

All classes of cases, male and female (including maternity cases), will be received, excepting those suffering from contagious diseases or mental disturbances.

The house will be open to the patients of any reputable physician, and will remain entirely in his charge, no house officer being in attendance.

The house will be open the entire year.

Before

After

To women physically unfit through illness or after surgery, the corset that is comfortable and effective is a most important matter.

The models designed by Mrs. Goodwin have met the most exacting tests through years of service and are recognized as an essential appliance in the field of mechanical therapeutics.

Over thirty distinct designs furnish the appropriate model for every type of figure, including corrective corsets for growing girls, all built upon the principle that beauty, comfort and good health are one.

An interesting treatise, "Corsets—An Analysis," sent upon request.

ZOOLAK is made from special milk and by a distinct scientific process devised by Dr. M. G. Dadirrian, admitted into the New York Academy of Medicine in 1885. It is entirely different to Buttermilk and other sour milk products, due to its process. ZOOLAK is the purest, most nourishing and the most easily digested food drink known to medical science. It is unequalled in all forms of stomach and intestinal disorders. It is the best food and tonic from childhood to old age.

My dear Dr. Dadirrian:

I have given Zoolak a very severe test, both in my family and among my patients. It has never been my pleasure to see a better article of food. It is a food of high proteid value, exceedingly rich in VITAMINES. In addition to this, the taste is excellent.

Zoolak seems to possess the rare property of aiding the digestion of other foods. It seems to establish chemical harmony when a number of articles are eaten at the same meal.

Yours sincerely,

PREFACE

IN presenting the Twenty-fourth Volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, the Medical Society of the State of New York has endeavored to present the best Medical Directory possible of these three states.

In compliance with the resolution of the House of Delegates, passed May 2, 1921, the physicians in the Borough of Bronx have been listed separately from those in the Borough of Manhattan.

As in former editions, the names of County Health Officers have been marked by a × following the name, and a list of Sanitary Supervisors included, and in compiling the list of physicians in New York State, the resolution of the House of Delegates passed on May 19, 1906, has been strictly complied with, viz.:

"*Resolved,* That in the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY AND CONNECTICUT, published by the Medical Society of the State of New York, only the names of registered physicians be inserted."

The Medical Society of the State of New York will consider it a favor if any one finding errors in this book will report the same, so that they may be corrected in future editions.

The total number of physicians in lists contained in Volume XXIV of the MEDICAL DIRECTORY is 20,248, of which 15,602 are in New York, 3,028 in New Jersey, 1,618 in Connecticut. Of the 15,602 physicians in New York State, 5,317 are credited to Manhattan, 841 to Bronx, 2,495 to Brooklyn, 358 to Queens, 94 to Richmond, a total for Greater New York of 9,105, which makes the number of physicians residing in the rest of the State, 6,497.

Rational Scientific Methods Employed in SUPERHEATED DRY AIR TREATMENT, PHYSIO-THERAPEUTIC APPLICATIONS, MECHANO-THERAPEUTIC MOVEMENTS, EXERCISES, MASSOTHERAPY

Many of the leading physicians of New York refer their patients to us for special treatment. Every ethical courtesy extended.

Superheated Dry Air Treatment

diminishes pain and causes active elimination, produces absorption of effusion and deposits in joints; breaks up adhesions; reduces inflammatory processes; actively sedative.

For Mechano-Therapeutic Treatment

we use the Arthromotor. Gives painless, active and passive movements; prevents organization of exudates, fibrous ankylosis of joints, muscular atrophy; deforming contractions of muscles, etc.

ADVANTAGES of membership in the Medical Society of the State of New York must appeal to every thoughtful physician.

WHY?

Not merely because of its scientific value:

Not merely because it promotes social and fraternal relations:

Not merely because of its strength as an organization for advancing and conserving the corporate interests of all its members:

BUT—

Because of its economic value to you.

Because of what you get.

Because you can't afford to remain without it.

CONSIDER THIS PROPOSITION.

Membership in the Medical Society of the State of New York immediately confers upon you the following:

Eligibility to Fellowship in the American Medical Association, the great National Organization.

Receipt of the New York State Journal of Medicine, issued monthly.

Receipt of the Medical Directory of New York, New Jersey and Connecticut, issued annually.

Medical Defense for Alleged malpractice suits by the Counsel of the Society.

Eligibility to Group Liability Insurance endorsed by the Medical Society of the State of New York.

The Society is composed of the members of the County Medical Societies of the State, and application should be made to the Secretary of the County Medical Society of the County in which a physician resides.

He Has Two Good Legs

BOTH MADE BY MARKS

Although a man may lose both his legs, he is not necessarily helpless. By using artificial legs of MARKS PATENT he can be restored to usefulness. The engraving is from a photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones. With MARKS PATENT Rubber Feet with Spring Mattress he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can work at a bench and earn good wages. He can walk and mingle with persons without betraying his loss; in fact, he is restored to himself for all practical purposes.

To Advertisers in Medical Journals

Who would think of skipping the medical profession of the Empire State in an advertising campaign? On the contrary, probably a large number of advertising mediums would be used in an endeavor to cover this rich territory. Why not use the one journal that probably covers the whole State more thoroughly than any other medical journal—**The New York State Journal of Medicine.**

Through this journal alone you can reach practically all the desirable Physicians in every town and village, in New York State—as well as in the larger cities, such as New York, Brooklyn, Buffalo, etc.

The New York State Journal of Medicine is the official organ of the Medical Society of the State of New York, and as such goes to every member of the State and County Societies, who for this reason take a more particular and personal interest in it than in any other journal.

All advertisements published in the journal must be ethical and all medical preparations must have been approved by the Council on Pharmacy and Chemistry of the American Medical Association before they can be accepted by the Committee on Publication.

The New York State Journal of Medicine has a guaranteed circulation of over 10,000 per month.

Blood Chemical Analysis

tells what the blood is storing up, what the Kidneys are doing and what they are NOT doing, and also the exact status of nitrogenous and carbohydrate equilibrium. A true analysis of this kind is of utmost importance to the physician for diagnosis and for prognosis.

We make the blood tests for—Urea nitrogen—Uric acid — Creatinine — Carbon Dioxide — Chlorides—

Blood Sugar

and all the more recent tests devised by Folin and his co-workers.

The Wassermann reaction and other complement fixation tests, including complement fixation for Tuberculosis—Blood count—Blood Cultures —Throat and other cultures.

Urine, Sputum Examinations—Pleural fluid—Cerebro Spinal fluid—Gastric contents—Mother's milk—in fact all the tests of a modern, well equipped laboratory to aid the clinician.
